

Every single person has the opportunity to make a positive difference in their community.

Doug Woods was one such person who found delight in giving and made a lasting difference in his community. DMARC will forever be inspired by and grateful for his spirit of generosity.

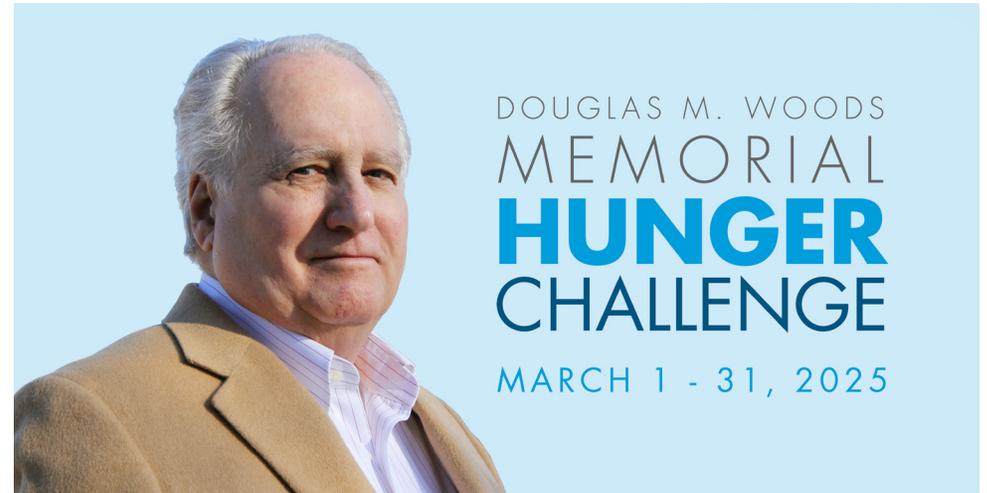

In the beginning the goal was simple – to create a challenge match that would not only help those facing food insecurity, but also encourage others to give generously. It was tremendously successful, and 13 years later has raised a total of more than \$800,000 in support of the DMARC Food Pantry Network.

We are truly grateful to the family of Douglas M. Woods who has decided to carry on his legacy.

Take the challenge and make a gift.
